# TRAVELING PARTIES

## PRE-LEWDS

**Dick the Boy Wonder's Party Bus** organized by Dick the Boy Wonder begins with his Annual Crab Hash the weekend of August 25th. The bus will then take people on the following hash odyssey: Sunday in Houston, Monday in Galveston, Tuesday in Corpus Christi, and Wednesday in San Antonio. Thursday there will be a tube hash in San Marcos followed by the Thursday night pub crawl(s) in Austin. If there is enough interest, the bus may continue up to Dallas for Post-Lewd activities. There is no cost or registration info. available yet, but there is an e-group that can be joined for getting updates. Subscribe by sending email to: [thebus-subscribe@egroups.com](mailto:thebus-subscribe@egroups.com)

**San Marcos Tube Hash** – The Austin Hash is having a tube hash on Thursday, August 30th. Starts at Noon from Hyatt. Trail starts in San Marcos at 1:00 pm. Look for more information on page 7. Rego is on the website, go to [harrier.net/interam](http://harrier.net/interam).

**Contra Pre-Lewd & Pub Crawl** – Starts 6:30 pm from the Hyatt Regency Hotel. Look for more information on page 7.

## POST-LEWDS

In a nutshell, **HEAD TO DFW**. There is a hash in Dallas on Monday, a Full Moon hash in Dallas on Tuesday, a mountain bike hash on Wednesday, followed by the BFE-III pub-crawl on Thursday and BFE-III on the weekend. There's even a Fort Worth hash on Monday, September 10th for any survivors. As mentioned in the Pre-Lewds earlier, DTBW's bus may partake in all this fun.

**Betty Ford East III - Fist Full Of Lager (A tribute to the Spaghetti Western starring Clint Eastwood and Lee van Queef)**

September 7 thru 9, 2001 – Hosted by the Dallas Hash House Harriers and the World Soup Wrestling Federation  
 Cost: Only \$69 until July 15. After that, the price goes up to \$79. You can get the \$79 rate until September 2 (InterAm). After that, it's \$89  
 What You'll Get: Camping included; Several Hash trails; Great food and liquid refreshments; Assorted Hash gimmies; A front row seat for the World Soup Wrestling Federation Spaghetti-O Throw Down

## WHAT TO BRING

**SUNBLOCK**—Summer's in Texas are HOT! If you burn a little, you WILL BURN ALOT here. Be safe and plan on bringing at least one bottle of sunblock with you. Plan on using Waterproof and put it on at least 30 minutes before going outside.

**POISON IVY PROTECTION/LOTION**—Whether it's Tecnu or another brand, be sure NOT to leave home without it. The trails WILL have poison ivy on them. Leggings is an option but remember not to run in them twice without having washed them out first. Sometimes you miss spots on legs and arms. Remember that having poison ivy relief lotion can make it much easier on the body.

**BUG SPRAY**—We'll be out in woods and of course, that means BUGS! Pack a can of OFF or something that can repel those pesky things away.

**BATHING SUIT**—Hyatt has a pool! Plus there are places around Austin such as Zilker Park that has a natural spring feed pool that you might enjoy taking a dip in.

**COMFORTABLE CLOTHES**—Chances are we will not have an early winter so pack something that is lite weight to wear. Most bars and restaurants are very casual on dress code. Of course, don't expect to be welcomed at the ritzy restaurants that have patrons inside wearing tie and slacks. Use your common sense!

**SHOES**—Besides packing several pair of running shoes (yes, you will be getting them really muddy), you might include comfortable sandals to change into after your hash.

**BEACH TOWEL**—Having a towel in your bag isn't a bad idea. Besides using the towel to dry off, it can be used to sit on during the evening hours while you watch the performances on stage.

**HASH T-SHIRTS**—Great opportunity to exchange hash t-shirts with hashers from around the country and around the world!

**WATER PACK**—It will be hot and humid and many hashers are not use to severe heat. Be sure to pack a water bag to take on trail with you. If you have health problems like diabetic, remember to pack something in a ziplock bag to keep on trail with you in case your insulin drops. Sweepers will be on trail but do not count on them carrying extra food or water on them for the hashers.

**SUNGLASSES**—Yes, your future looks bright so don't forget to bring those shades! Just like your skin, eyes need protection too in the hot Texas sun.

## TRANSPORTATION VIA BUS

For those hashers arriving on Friday via Austin-Bergstrom International Airport, there will be a bus shuttle available to the Hyatt Regency Hotel and Homestead Village Hotel. Buses will also take hashers back to airport on Monday.

Thursday/Friday/Saturday buses will circulate during the evening hours for those hashers wanting to visit some of Austin's hotspots (like *The Yellow Rose* men's club). Most of the nightlife stops at 2am. A few dance clubs remain open until 4am (The Forum off of Congress and 5th St.) but no liquor is served. Times will be posted at the Hotel for these buses.

The Trail Buses will be listed with ID Number and Length of Trail. Please remember this information when getting on and off the bus. You'll be able to leave your dry bags on-board the bus.

Austin has old fashion buses called the "Dillo" that run around the downtown Austin area and there FREE to use.

## LOCAL SHOPPING

If you're like me, I love to bring back new souvenirs of my trips aboard. South Congress merchants offer a variety of items that are unique and affordable. Check'em out!

The drag is another favorite place to shop. Guadalupe Street (known as the drag to the locals) runs next to the University of Texas. Lots of funky shops to go through with interesting stuff to view and buy.

Sixth Street offers a few interesting stores. A Cigar shop and a couple of sex shops might be worth a look. I love the way they market the sex toys as "educational devices." Boy, school was never like that when I was growing up! **\*WARNING\*** - Sex stores may cause premature enjoyment so RVMSON beware!

If you need to buy new running shoes during the event because your shoes became totally destroyed by the mud, muck, rocks and shiggy, then take a run over to RunTex. Trade in your old shoes for new ones and get \$10 off your purchase no matter what condition the old shoes are in. Can't beat that kind of offer.

No matter what your interest are, I'm sure you'll find something in Austin to your liking to take back home with you.

## IAH 2001 MisManagement Committee

These are the people to blame for your goodtimes!

**Barry Bryan (The Body) - Registration** - I began hashing in Japan in 1984, with the Tokyo Ladies Hash House Harriettes. After some months I also joined the Tokyo Hash House Harriers. I had a distinguished career as On Sec for both kennels over the next few years, with the high point being the member of the organizing committee for the first-ever July 4th all-Japan hash. In 1988 I returned to the USA and landed in South Florida, where unbelievably there were no hashes. On May 1st 1988 I joined together with Needles formerly Okinawa H3) and Moon (formerly Karachi H3) to lay trail for hash #1 of the Palm Beach Hash House Harriers. Over the next eight years I alternated between the posts of GM and RA of PBH3, which recently celebrated its 700th trail. There are now seven hashes in South Florida. In 1996 I was forcibly relocated to Texas, where I immediately joined the Austin Hash House Harriers and gained much notoriety due to my ability to do trail at such an advanced age.

**Barbara Fryer (She Mussel Birch) - Event Planning** - I started hashing in Austin in Feb of 1989 and was immediately hooked! My first big hash trip was to World Interhash in Phuket in 1992 and have been addicted to international hashing ever since. There's nothing nicer than having friends all over the globe that you can hook up for a beer and a hash with anytime, anywhere! It may be a bit rough on the pocketbook, but I wouldn't trade any of my hash trips for anything!

**Tony Fryer (Try A F\*ck) - Trails** - I started hashing in late 1993. At the time I was working the night shift in the Brussels bar where the local hashers drank. Higgins and other miscreants convinced me to join them one frosty wintery afternoon, and I was hooked. Much of my time with the Brussels Manneke Piss is lost in an alcoholic fugue, although I vaguely recall becoming Grand Master some years later. Once Sex Reject had been deported off to Spain (Ireland still wouldn't have him) I sobered up slightly and discovered with a shock that the weather was shitty, and showed no signs of improving. I'd met She Mussel Birch some time earlier and she had promised me a good time in Texas, so I popped over for a visit and married her. The End. Oh, not quite, I should point out that as a staunch follower - I can't keep up with him - of Zippy on the Fat Boy hashes, I am the least qualified hasher south of the St Lawrence to be in charge of InterAm trails. This means that they will either be too long, too short, too wet, too dry, and so on. And on, and on.

**Ann Pelton (Twin Peaks) - Food/Event Planning** - Started hashing with Austin in 1989. I had a keg left over from a party and Sperm Bank knew just the people to drink it. Crusty Beaver and Snake Charmer were the hares I believe. There were a piles of dog's bones thought to be dumped there by the pound or something? Who made me come: Sperm Bank. Favorite drinks: Jack & Coke, Irish Coffee and of course BEER. Favorite trail: shiggy, water, off the beaten path.

**Sally Pelton (Dairy Queen) - Volunteer Recruiter** - DQ started hashing in 1996. Got named on her first hash for feeding Baby Spewey in the circle. Was hash cash for two years, on-sec for one year, then JM for one year. Her first outa town event was Pittsburgh InterAm in '99 and she's been hooked on travel hashing ever since. Been makin' friends at Hedon, Betty Ford East, DTBW's Crab Hash, Colorado Invihash and most recently, B2B.

**Richard Perkins (SmegmaBalls) - Gimmies** - Mother Hash: Phoenix H3, cofounder of Iguana H3 (1992), Piranha H3 (2001) and Guadalajara H3 (2001). Regular White House Hasher (1992 - 1995) and Austin H3 (1995 - present). Naming a result of the recruitment of a group of Harley-riding Mommas into the Phoenix H3 for its 5 year founding celebrations. Responds to the call "ooh baybee" in the dark; welcomes all hashers to Austin and invites harriettes to bare themselves whenever it strikes their fancy ... Austin will recover, someday.

**Lisa Richard (HighBeams) - Publications/Promotions** - I started hasing in '95 with White House H3. From there it was on to Austin in '98. During that time I have visited many kennels and made alot of new friends. The hashers have become a second family to me. The friends I have made are truly one of a kind (you get to figure out what that means). I consider IAH a family reunion for me. I get to see my brothers and sisters and meet new family members all at the same time. I do hope you all have the best time visiting Austin.

**Jay Vandebus (Glow Worm) - WebBastard** - I began hashing in September, 1998 with the Austin H3, my first hash being Texas Interhash '98. Have established myself as a traveling hasher - with the Iguana H3, Betty Ford East, CoTex, Crab Hash (and I may well hold the record for most spectacular injury in the history of that event!), Colorado Invihash and miscellaneous Dallas/Ft. Worth events. usually to the chagrin of the hosting Hashes. Have managed to avoid positions of responsibility (to say nothing of sobriety) for pretty much my entire hashing career. And yes, I do occasionally glow under the right circumstances.

**Dan Davis (Chlamydia) - Beermeister** - Although I was first introduced to hashing in Panama in 1984 I didn't actually hash until February of 1998 in Austin, TX. Shortly after my first Austin hash I took over beermeister duties for the AH3 and gained the name Chlamydia at some point along the way after an unfortunate run in with, well, just use your imagination. Some facts about chlamydia: 1) Chlamydia is the number one bacterial sexually transmitted disease (STD) in the United States today. 2) Chlamydia is particularly popular among teens and young adults. 3) Symptoms of Chlamydia may include headache, nausea and the urge to urinate more than usual. 4) Chlamydia is the beermeister for the IAH 2001. Remember, just say NO to doxycycline!

## San Marcos Tube Hash

When: August 30th, 2001 12:30 pm

Where: Ramon Lucio Park, San Marcos, Texas

Why: Because it's really damn hot in August and the beer and river are cold. Price: \$20 for hash & bus, \$10 hash only

Schedule: 11:00 Meet for the bus at Hyatt Regency Hotel; 11:30 Bus takes off for San Marcos; 12:10 Arrive San Marcos; 12:30 Hounds on trail. This is an A to tubes to A trail. The trail is fairly short and the tube trip takes about an hour. We will have you back at the hash hotel with plenty of time to get ready for either of the two pro-lubes.

Driving directions for those not on the bus: Take IH-35 to San Marcos and take exit # 204A. You will see the softball fields on the East side of the IH-35 feeder. Take the entrance road into Ramon Lucio Park and follow the north road around that parallels IH-35 to the parking lot at the end. You will see the pavilion about 50 yards from there. ## HASH TRAILS – BRIEF DESCRIPTION

### IAH 2001 – Marks to Look for

The following marks will be used on IAH 2001 trail:

- X Check
- (X) Backcheck – the trail will branch off somewhere between the backcheck and the original check
- True trail arrow – hashers will always follow this arrow in the direction which it points.
- F False trail. Hashers will return to the last check and search for a different trail.

Be sure to listen to the trail hares at the start of the trail for further instructions. Ask questions if you're confused (which does happen from time to time). Austin is HOT in August/September so be sure to bring a water bottle/water mister on trail with you. The heat will KICK YOUR ASS so be prepared! Avoid heat exhaustion, bring water with you on trail!!!

Some of the trail hares ... be afraid, very afraid!!!

## POISON IVY, OAK, AND SUMAC INFORMATION

- ✓ Most common allergy in the country claiming half the population
- ✓ Sensitivity to urushiol can develop at any time
- ✓ Solutions or cures are those that annihilate urushiol
- ✓ Everyone appears to react slightly different to all the remedies.

The compound leaves of poison-ivy consist of three pointed leaflets; the middle leaflet has a much longer stalk than the two side ones. The leaflet edges can be smooth or toothed but are rarely lobed. The leaves vary greatly in size, from 8 to 55 mm in length. They are reddish when they emerge in the spring, turn green during the summer, and become various shades of yellow, orange or red in the autumn.

### Myth

Poison Ivy is contagious.

You can catch poison ivy simply by being near the plants

Leaves of three, let them be

Don't worry about dead plants

Breaking the blisters releases urushiol oil that can spread

### Fact

Rubbing the rashes won't spread poison ivy to other parts of your body (or to another person). You spread the rash only if urushiol oil — the sticky, resinlike substance that causes the rash — has been left on your hands.

Direct contact is needed to release urushiol oil. Stay away from forest fires, direct burning, or anything else that can cause the oil to become airborne such as a lawnmower, trimmer, etc.

Poison sumac has 7 to 13 leaves on a branch, although poison ivy and oak have 3 leaves per cluster.

Urushiol oil stays active on any surface, including dead plants, for up to 5 years.

Not true. But your wounds can become infected and you may make the scarring worse. In very extreme cases, excessive fluid may need to be withdrawn by a doctor.

**Use Poison Ivy Protection while on Trial!**
